Summary

Enthusiastic and driven Computer Science student at Cairo University, with a strong background in front-end development, artificial intelligence, cybersecurity, and game development. With hands-on experience gained through an internship at Kemet AI Company, I have developed and maintained web applications using cutting-edge technologies such as React, Redux, and Firebase. My diverse skill set includes proficiency in the MERN stack, Android development, and Java programming, complemented by a solid foundation in AI algorithms and cybersecurity principles.

I excel in problem-solving, project planning, and working collaboratively in agile environments. Fluent in both Arabic and English, I am eager to contribute to innovative projects and further develop my skills in a dynamic and challenging setting. My goal is to leverage my technical expertise and passion for technology to create impactful solutions and grow as a software developer.

Education

Computer Science

Cairo University , Giza

Experience

Kemet AI Company

Front-End Development Intern, Cairo

- Developed and maintained web applications using React, Redux, Axios, Firebase, and JavaScript.
- Collaborated with cross-functional teams to design and implement new features.
- Utilized Git for version control and Jira for project management.

Skills

Front-End Development: (Html ,Css ,Javascript ,React), Web Development: (MongoDB, Express.js, React.js, Node.js), Android Development: (Android Studio, Kotlin, OOP), Java Development: (Java, Java OOP), Artificial Intelligence: (AI Algorithms, Genetic Algorithms), Game Development: (Unity 3D,Godot, C#, Math Fundamentals)

Languages

Arabic, English
